Academic Year 2019/2020
- National Youth Achievement Award **Silver**, August 2018
- NEvation!12 **Top 10 Finalist Team**, February 2018

## LEADERSHIP & VOLUNTEER EXPERIENCE

---

- **TECHNOLOGY HEAD IN POLYTECHNIC CLUB [2020]**

- Head of Tech team for Overflow programming club in my polytechnic. Duties include ensuring smooth execution of events and resolving of technical issues. In the club, I also planned and taught 2 lessons about programming

- **LEAD TRAINER FOR OUTREACH PROGRAM [2019]**

- Lead trainer in an outreach program organized by my Polytechnic to expose secondary school students to the field of technology. As the lead trainer, I planned the content to be taught, prepared all relevant material and also planned operational details with a team of 3 other people. Learnt how to control a large crowd of students and keep them interested from this experience

- **FOOD DISTRIBUTION FOR RAMADAN AT LOCAL MOSQUE [2018]**

- Volunteered at Masjid Al-Islah Mosque located in Punggol to help distribute food to the community to celebrate Ramadan. There, I helped to prepare food, pack food, and distribute it to people who were breaking fast. This taught me a lot about the Muslim culture and also learnt a lot about their cuisine. Interactions with migrant workers breaking fast also helped me understand things from their perspective

- **MERCY RELIEF FUND RAISING EVENT [2017]**

- Helped out in a Run for Humanity fun raiser event organized by Mercy Relief at East Coast Park. There, I learnt more about the organization like their operations and their cause. As for my role, I was assigned to help sell keychains, tote bags and other accessories to the public. From this, I learnt how to be more confident and how to draw people in to visit the booth

- **CLASS CHAIRPERSON IN SECONDARY SCHOOL [2016 & 2017]**
